**STOCK AT SELECT LOCATIONS**

**Available at all locations.**

**Polaris™ Insulated Siding**

- **Style**
  Freshly painted wood look
  Deep 3/4” profile height provides attractive shadow-lines for the D6

- **Maintenance**
  Limited Lifetime Warranty
  Easy-care convenience, never needs painting

**Performance**

- Thickness: D6 .046; Board & Batten .048
- Vapor permeability, allowing the siding to breath and not absorb moisture
- Insulated vinyl siding can help reduce wall irregularities
- Resists dents, hail damage, scratches & fading
- Reduces thermal conductivity
- Added impact resistance

**Double 6” Vinyl Siding**

- **Length**: 12’ 6”
- **SQ/CTN**: 1
- **PNLS/CTN**: 8

**Available in 15 colors**

- Featuring Paramount Color

SIDING INSULATION

Neopor Thermal Insulation

HOW NEOPOR IS SUPERIOR
• Radiant heat moving through Neopor is reflected hundreds of times, instead of moving straight through like traditional insulation
• This significantly slows down the transfer of heat, making it more energy efficient
• Protected by manufacturer’s Lifetime Transferrable Warranty

AVAILABLE FOR
POLARIS ULTRASIDE • WEATHERTECH • HOMEVIEW

Installation Training Available
Contact your MBS Representative to learn more.

PAGE 10
SHINGLES & SHAKES

We work in the old-world tradition to use over 100 different molds that capture the natural traits of hand split cedar. All our claddings have a texture that is carried through to the bottom edge of the panel to give an authentic rough-sawn look. This level of detail is only possible with our proprietary process.

FIBER CEMENT SIDING

James Hardie® Siding Products with ColorPlus® Technology

- Shadow lines and rich, realistic wood grain provide a more natural and attractive finish for lasting curb appeal
- Ages beautifully and maintains its original character over time with low maintenance
- Resists warping, cracking and splitting caused by exposure to weather and temperature extremes
- Resists damage from high winds and hail
- Won’t sag or lose shape over time
- Professionally developed color palette based on market specific preferences
- Multi-coat baked-on finish ensures color quality and consistency
- Fiber cement can be painted to change the appearance
- According to a report by a leading home improvement magazine, adding fiber-cement siding to your home is the #1 way to get the return on your investment.

KLEER®

THE LOOK OF WOOD, ONLY SIMPLER

Kleer® cellular PVC trimboard, mouldings, and accessories answer everyone’s needs through durable, low-maintenance products that are great looking, easy to install and last a lifetime.

TruEDGE® Trimboards

- Smooth and Woodgrain Finish
- Widths: 3”, 4”, 5”, 6”, 8”, 10”, 12”, 16”
- Lengths: 5/8” x 18’, 3/4” x 18’, 15/16” x 18’, 15/16” x 20’

Kleer Mouldings

- Offer all the style and elegance of wood, without any of the hassle or high costs of maintenance.
